Keriema,

Thank you so much for organizing the EPA comments and for such a prompt review of the pre-decisional draft document. It is much appreciated. I'll will update the document per comments and get it started in our e-clearance system.

Thanks again,
Danielle

Subject: EPA Comments to the pre-decisional Draft Public Health Consultation

Importance: High

Good afternoon Danielle,

EPA would like to thank ATSDR for having an opportunity to review this document. As you know, these comments do not represent all of EPA's comments. This email does highlight specific comments, recommendations, and changes that ATSDR might consider changing about the document prior to submitting it for review through your internal process. It is further noted that these are summarized comments from both the RPM and OSCs, as well as the human health risk assessor.
